Journal Profile

CLELEjournal is a new, bi-annual, comprehensively peer-reviewed online journal for scholars, teacher educators and practitioners involved in using and researching children's literature in the field of English learning as a second, additional or foreign language.

The journal investigates children's literature as an art form, and as a framework with which to connect L2 literature teaching across the school years. The scope covers the affordances of children's literature for L2 acquisition with pre-school infants through to young adults.

CLELEjournal is open access. All issues can be downloaded free of charge from the journal website.
